

Workshop

The aim of the workshop is to bring together a book manuscript written in Chicago (and Paris) about an important episode of the history of science in Vienna with local experts. The book entitled *Language and the Mind: Encounters in the Mind Sciences* is written by the co-organiser of the workshop John Goldsmith (University of Chicago) and Bernard Laks (professor of linguistics at the University of Paris Ovest La Défense). It is the completion of a history of the interaction between linguistics, philosophy, and psychology which deals with the second half of the 19th century up until the beginning of World War II.

Organisers:

John Goldsmith (University of Chicago)
Elissa Pustka (University of Vienna)

Cover:

Battles in the Mind
Volume 1: The First Four Generations
