

Vorträge

Mittwoch, 29. Juni 2011, ab 15:15 Uhr, Seminarraum C 209, UZA 4

Mathematisches Kolloquium – Einladung zu einem Vortrag im Rahmen der Habilitation von Dr. Peter Balazs (ÖAW, Österreichische Akademie der Wissenschaften Acoustics Research Institute, Vienna)

„New Concepts in Frame Theory Motivated by Acoustical Applications“

Abstract:

Application-oriented mathematics develops theoretical results and new mathematical concepts, motivated by application. The application-oriented approach produces results significant both for mathematics and the applied sciences.

In this talk we will present an overview of new concepts in frame theory motivated by signal processing and acoustical applications.

We will present new concepts in general frame theory, time-frequency analysis and the theory of frame multipliers, as well as giving a short presentation of applications in acoustics.

(Dekan Univ.-Prof. Dr. Rindler, Univ.-Prof. Dr. Herbert Muthsam)

Dienstag, 28. Juni 2011, ab 11:00 Uhr, Erwin Schrödinger Lecture Hall, Boltzmannngasse 9, 1090 Wien

ESI Seminar

Prof. Michael Stiassnie: “Tsunami calculations”

organized by A. Constantin

Dienstag, 28. Juni 2011, von 15:00 Uhr bis 17:00 Uhr, Seminarraum D 101, UZA 4

Vortrag im Rahmen des PJSE Research Seminars von Univ.-Prof. Goulnara Arzhantseva, PhD

-Introduction to the space of marked groups

-Finite-dimensional approximations of finitely generated groups

organized by G. Arzhantseva, S. Gal, A. Timar

Link: <http://www.mat.univie.ac.at/~dosaj/GGTWien/Seminar.html>

Mittwoch, 29. Juni 2011, von 17:15 Uhr bis 18:45 Uhr, HS 2, UZA 2

Alumni Veranstaltungsreihe – „Wissenschaft und Praxis“

Vizekanzler o. Univ. Prof. Dr. Heinz Engl und Dr. Andreas Binder

„Industrial Mathematics and Inverse Problems II: Sparsity, Systems Biology, Computational Finance

Anschließend Buffet

organized by Alumni-Verband der Univ. Wien, Alumni Mathematik, Fakultät für Mathematik
