Teichmüller Theory

February 13 - February 15, 2013

Organized by: Louis Funar, Yurii Neretin, Athanase Papadopoulos and Bob Penner

- **Wednesday, February 13**
  10:00 – 11:00 Yusuke Kuno
  A generalization of Dehn twists, I
  11:00 – 12:00 Yusuke Kuno
  A generalization of Dehn twists, II

- **Thursday, February 14**
  10:00 – 11:00 Koji Fujiwara
  Group actions on quasi-trees and its application, I
  11:00 – 12:00 Koji Fujiwara
  Group actions on quasi-trees and its application, II

- **Friday, February 15**
  10:00 – 11:00 Hiroki Kodama
  Minimal C^1-diffeomorphisms of the circle which admit fundamental domains, I
  11:00 – 12:00 Hiroki Kodama
  Minimal C^1-diffeomorphisms of the circle which admit fundamental domains, II

All lectures take place at the ESI Boltzmann Lecture Hall.
