"Minimal surfaces and surfaces of prescribed mean curvature"

"Minimal surfaces and surfaces of prescribed mean curvature"

Abstract:

Minimal surfaces serve as mathematical models for soap films, and play a central role in differential geometry. In this lecture, I will focus on uniqueness questions, including Lawson's conjecture on embedded minimal tori in the 3-sphere and related problems.

Zeit: Mittwoch 8. Juni 2016
15.45 Uhr Kaffeejause,
16.15 Uhr Vortrag,
vinum cum pane im Anschluss

Ort: Fakultät für Mathematik,
Oskar-Morgenstern-Platz 1,
Sky Lounge

Michael Eichmair
Harald Rindler
