*Exponential convergence to equilibrium for the kinetic Fokker-Planck equation*

Abstract: <https://sfb65.univie.ac.at/#!/public/events/details/?type=1&id=666>

---

The seminar takes place in hybrid form (in person and also on Zoom). The Zoom link is sent per email through the DK/SFB Newsletter (normally sent either on Friday or during the weekend). You can subscribe to this newsletter at <https://sfb65.univie.ac.at/#!/public/news/newsletter/subscribe/>

Alternatively, if you are interested only in this seminar, you can request the Zoom link by writing an email to [matteo.tommasini@univie.ac.at](mailto:matteo.tommasini@univie.ac.at) (please write your request from an institutional email address, so that we can minimize the risk of Zoombombing).
