Vienna PDE Afternoon

22.06.2022 from 14:00 to 16:00

Gußhausstraße 25, 1040 Vienna

EI4 Reithoffer HS, 2nd floor

and online on Zoom

From 14:00 to 14:45:

Henry Maximilian von Wahl (University of Vienna)

Towards discontinuous Galerkin methods for moist air including precipitation

Abstract: <https://sfb65.univie.ac.at/#!/public/events/details/?type=1&id=678>

From 15:00 to 15:30:

Björn Bahr (TU Wien)

Efficient realization of a residual-type error estimator for the fractional Laplacian

Abstract: <https://sfb65.univie.ac.at/#!/public/events/details/?type=1&id=676>

From 15:30 to 16:00:

Michael Fischer (University of Vienna)

A rigorous limit from micro to macro

Abstract: <https://sfb65.univie.ac.at/#!/public/events/details/?type=1&id=680>

The seminars take place in hybrid form. The Zoom link is sent per email through the DK/SFB Newsletter (normally sent either on Friday or during the weekend). You can subscribe to this newsletter at <https://sfb65.univie.ac.at/#!/public/news/newsletter/subscribe/>

Alternatively, if you are interested only in a given seminar, you could request a Zoom link by writing an email to matteo.tommasini@univie.ac.at (please write your request from an institutional email address, so that we can minimize the risk of Zoombombing).
