## Vienna PDE Afternoon

19.10.2022 from 14:00 to 14:45

TU Wien - Gußhausstraße 25, 1040 Vienna

EI 4 Reithoffer HS, 2nd floor

(this event takes also place online)

From 14:00 to 14:45:

**Tomáš Roubíček** (Mathematical Institute, Charles University, Prague & Institute of Thermo-mechanics, Czech Academy of Sciences, Czech Republic)

*Interaction of finitely-strained viscoelastic multipolar solids and fluids by an Eulerian approach*

Abstract: <https://sfb65.univie.ac.at/#!/public/events/details/?type=1&id=686>

---

The seminars take place in hybrid form (in person and also on Zoom). The Zoom link is sent per email through the SFB Newsletter (normally sent either on Friday or during the weekend). You can subscribe to this newsletter at <https://sfb65.univie.ac.at/#!/public/news/newsletter/subscribe/>

Alternatively, if you are interested only in a given seminar, you could request a Zoom link by writing an email to [matteo.tommasini@univie.ac.at](mailto:matteo.tommasini@univie.ac.at) (please write your request from an institutional email address, so that we can minimize the risk of Zoombombing).
