Vienna PDE Afternoon

15.03.2023 from 14:00 to 15:30

University of Vienna, Faculty of Mathematics, Oskar-Morgenstern-Platz, 1, Vienna

HS 2, ground floor

(this event takes also place online)

From 14:00 to 14:45:

Valerio Pagliari (TU Wien)

Another look at the Bourgain-Brezis-Mironescu formula

Abstract: https://sfb65.univie.ac.at/#!/public/events/details/?type=1&id=714

From 15:00 to 15:30:

Manuel Seitz (University of Vienna)

Discrete-to-continuum linearization in atomistic dynamics

Abstract: https://sfb65.univie.ac.at/#!/public/events/details/?type=1&id=716

The seminars take place in hybrid form (in person and also on Zoom). The Zoom link is sent per email through the SFB Newsletter (normally sent either on Friday or during the weekend). You can subscribe to this newsletter at https://sfb65.univie.ac.at/#!/public/news/newsletter/subscribe/

Alternatively, if you are interested only in a given seminar, you could request a Zoom link by writing an email to matteo.tommasini@univie.ac.at (please write your request from an institutional email address, so that we can minimize the risk of Zoombombing).
