## Vienna PDE Afternoon

18.10.2023 from 14:00 to 15:00

University of Vienna, Kolingasse 14-16, 1090 Vienna

Seminar room 16 (room to be confirmed) and online on Zoom

From 14:00 to 14:30 (exact time to be confirmed):

**Andrea Chiesa** (University of Vienna)

*Dewetting dynamics of anisotropic particles: a preliminary result for a level-set approach*

Abstract: <https://sfb65.univie.ac.at/#!/public/events/details/?type=1&id=763>

---

From 14:30 to 15:00 (exact time to be confirmed):

**Francesco Pedrotti** (IST Austria)

*Improved Convergence of Score-Based Diffusion Models via Prediction-Correction*

Abstract: <https://sfb65.univie.ac.at/#!/public/events/details/?type=1&id=764>

---

Please note that the location and the exact schedule are still to be confirmed; please check [this link](#) in the next days.

The seminars take place in hybrid form (in person and also on Zoom). The Zoom link is sent per email through the SFB Newsletter (normally sent either on Friday or during the weekend). You can subscribe to this newsletter at <https://sfb65.univie.ac.at/#!/public/news/newsletter/subscribe/>

Alternatively, if you are interested only in a given seminar, you could request a Zoom link by writing an email to [matteo.tommasini@univie.ac.at](mailto:matteo.tommasini@univie.ac.at) (please write your request from an institutional email address, so that we can minimize the risk of Zoombombing).
