Taming Complexity in
Partial Differential Systems

Austrian
Science Fund

Vienna PDE Afternoon

29.11.2023 from 14:15 to 16:15

TU Wien, Wiedner Hauptstraße 8, Vienna

Green area, 6th floor, seminar room DA 6A and online on Zoom

From 14:15 to 15:00:

Manuela Feistl (University of Tübingen, Germany)

Microscopic Derivation of Vlasov type equations

Abstract: <https://sfb65.univie.ac.at/#!/public/events/details/?type=1&id=774>

From 15:15 to 15:45:

Edoardo Bonetti (TU Wien)

TBA

The abstract will be listed here: <https://sfb65.univie.ac.at/#!/public/events/details/?type=1&id=775>

From 15:45 to 16:15:

Srinath Bulusu (TU Wien)

Finite Element Methods and Lattice Gauge Theory

Abstract: <https://sfb65.univie.ac.at/#!/public/events/details/?type=1&id=776>

The seminars take place in hybrid form (in person and also on Zoom). The Zoom link is sent per email through the SFB Newsletter (normally sent either on Friday or during the weekend). You can subscribe to this newsletter at <https://sfb65.univie.ac.at/#!/public/news/newsletter/subscribe/>

Alternatively, if you are interested only in a given seminar, you could request a Zoom link by writing an email to matteo.tommasini@univie.ac.at (please write your request from an institutional email address, so that we can minimize the risk of Zoombombing).
