Taming Complexity in
Partial Differential Systems

Austrian
Science Fund

Vienna PDE Afternoon

10.01.2024 from 14:15 to 16:00

TU Wien, Wiedner Hauptstraße 8, Vienna

Green area, 6th floor, seminar room DA 6A

(this event takes also place online)

From 14:15 to 15:00:

Yoo Hocheon (Gachon University, Korea)

Emerging semiconductors meet new applications: multi-valued computing, security, and hazard monitoring

Abstract: <https://sfb65.univie.ac.at/s/nh>

From 15:15 to 16:00:

Léo Meyer (University of Vienna)

Mathematical modeling of the size distribution of adipose cells

Abstract: <https://sfb65.univie.ac.at/s/ni>

The seminars take place in hybrid form (in person and also on Zoom). The Zoom link is sent per email through the SFB Newsletter (normally sent either on Friday or during the weekend). You can subscribe to this newsletter at <https://sfb65.univie.ac.at/#!/public/news/newsletter/subscribe/>

Alternatively, if you are interested only in a given seminar, you could request a Zoom link by writing an email to matteo.tommasini@univie.ac.at (please write your request from an institutional email address, so that we can minimize the risk of Zoombombing).
