Vienna PDE Afternoon

17.01.2024 from 14:15 to 15:45

TU Wien, Wiedner Hauptstraße 8, Vienna

Green area, 6th floor, seminar room DA 6A

(this event takes also place online)

From 14:15 to 15:00:

Stanislav Budzinskiy (University of Vienna)

The simple and versatile method of alternating projections

Abstract: https://sfb65.univie.ac.at/s/nj/

From 15:15 to 15:45:

Denis Konov (University of Vienna)

Tensor train approximation for data representation and solution of the PDEs

Abstract: https://sfb65.univie.ac.at/s/nk/

The seminars take place in hybrid form (in person and also on Zoom). The Zoom link is sent per email through the SFB Newsletter (normally sent either on Friday or during the weekend). You can subscribe to this newsletter at https://sfb65.univie.ac.at/#!/public/news/newsletter/subscribe/

Alternatively, if you are interested only in a given seminar, you could request a Zoom link by writing an email to matteo.tommasini@univie.ac.at (please write your request from an institutional email address, so that we can minimize the risk of Zoombombing).
