Vienna PDE Afternoon

Wednesday, 30.04.2025 from 14:00 to 15:45

University of Vienna, Faculty of Mathematics, Oskar-Morgenstern-Platz 1

HS 2 (ground floor) and Zoom

From 14:00 to 14:45:

Josipa-Pina Milišić (University of Zagreb, Croatia)

Richards flow in porous media with cross-diffusion

Abstract: [SFB65.univie.ac.at/s/pt](https://sfb65.univie.ac.at/s/pt)

From 15:00 to 15:45:

Fabian Rupp (University of Vienna)

A new energy perspective on the curve shortening flow of complete curves

Abstract: [SFB65.univie.ac.at/s/pt](https://sfb65.univie.ac.at/s/pt)

The seminars take place in hybrid form (in person and also on Zoom). The Zoom link is sent per email through the SFB Newsletter (normally sent either on Friday or during the weekend). You can subscribe to this newsletter at sfb65.univie.ac.at/#!/public/news/newsletter/subscribe/

Alternatively, if you are interested only in a given seminar, you could request a Zoom link by writing an email to matteo.tommasini@univie.ac.at (please write your request from an institutional email address, so that we can minimize the risk of Zoombombing).
